PROFESSIONAL SUMMARY

MCA graduate and frontend-focused software engineering professional with hands-on experience in JavaScript, React.js, Node.js, Express.js, MongoDB, REST APIs, JWT authentication, RBAC, Socket.io, and cloud-based document management. Experienced in building responsive user interfaces, modular component architecture, and AI-powered web applications, with a strong focus on problem-solving and collaborative Agile development.

EXPERIENCE

Narola Infotech, Surat | Trainee Software Engineer

Jan 2026 – Jun 2026

- Contributed to a B2B centralized KYC platform that streamlined business onboarding, identity verification, and deal-management workflows.
- Designed and implemented a centralized Trust Score module to evaluate business credibility using KYC status and platform activity.
- Built secure REST APIs with Node.js and Express.js for KYC, document management, and business workflow operations.
- Developed real-time features with Socket.io for live notifications and workflow status updates.
- Implemented JWT-based authentication and role-based authorization while collaborating through Git in an Agile development environment.

PROJECTS

Multi-Tenant Document Management System

Node.js • Express.js • MongoDB • AWS S3

- Developed a scalable multi-tenant document-management backend with secure tenant-level data isolation through dedicated database provisioning.
- Implemented direct AWS S3 uploads using pre-signed URLs, reducing backend file-transfer bottlenecks and supporting large file uploads efficiently.
- Built RESTful APIs with JWT authentication, tenant-aware authorization, and role-based access control (RBAC).
- Designed a modular MVC architecture with reusable middleware, centralized error handling, and request validation.
- Automated tenant onboarding by provisioning organization-specific databases, administrator accounts, and email-verification workflows.

Talk2hire

React.js • Node.js • Express.js • MongoDB • Firebase • Gemini AI • VAPI

- Built an AI-powered mock-interview platform supporting real-time voice-based interviews using VAPI.
- Integrated Gemini AI to dynamically generate interview questions and personalized feedback reports.
- Implemented secure authentication with Firebase Authentication and managed user data using Cloud Firestore.

TECHNICAL SKILLS

Frontend	React.js, JavaScript, CSS, HTML, Tailwind CSS
Database	MongoDB
Development	Git, GitHub, AI Tools

EDUCATION

Gujarat Technological University — Master of Computer Applications (MCA) | 2024 – 2026

Naran Lala College of Professional & Applied Science, VNSGU — Bachelor of Computer Applications (BCA) | 2024 | CGPA: 5.97

Sheth P.H. Vidhyalaya, GSEB — 12th Gujarat Board | 2021 | 56.96%

Sheth P.H. Vidhyalaya, GSEB — 10th Gujarat Board | 2019 | 68.94%

CORE STRENGTHS

Problem-Solving & Analytical Thinking • Strong Communication & Team Collaboration • Quick Learner & Adaptability • Leadership & Time Management

LANGUAGES

English (Fluent) • Gujarati • Hindi
